Are you interested in applying for an American Diabetes Association (ADA) Research Grant?

Mahalo Hawaii!

Because of your contributions we want to “fund” your diabetes research!

The ADA funds research aimed at preventing and curing diabetes, as well as research geared at helping people with diabetes live longer, healthier lives:

- ADA’s National Research Program places no budget limits per state
- Nearly 4,000 research projects have been funded since October 1994 with more than $550 million invested in diabetes research
- In 2010, the ADA Research Program committed $34.1 million to diabetes research with more than 400 ADA-sponsored research projects nationwide at over 146 leading research institutions in the country
- 25% of the annual research budget is dedicated to support investigators early in their careers

Please visit the link below for more information and about current grant opportunities:

Current ADA Research Portfolio

- Clinical Therapeutics: 13%
- Signal Transduction (Insulin and Non-Insulin): 14%
- Integrated Physiology: 14%
- Obesity Prediabetes: 9%
- Immunology: 8%
- Islet and Beta-cell Biology: 11%
- Adipocyte Biology: 5%
- Other: 11%
- Complications: 17%

ADA’s current ratio of bench science vs. bedside/translation science is at 70/30.

ADA Research Program Information

Clinical Scholars Award
Award Description: These awards provide one year of research support to students interested in clinical and basic science diabetes research. Those working on an MD, PharmD, DPM or DO are eligible.
Support: Awards are $30,000 a year for one year. Applicants may request up to $20,000 for the student's stipend and up to $10,000 for lab expenses. No indirect costs may be requested.

Clinical Scientist Training Award
Award Description: This award supports MD, PharmD, DPM or DO students who are working on joint degrees. Eligible students are pursuing a dual degree in medicine, pharmacy, podiatric medicine or osteopathy and must be a research-oriented PhD, Master in Clinical Research, or Master of Public Health degree.
Support: Awards are $30,000 a year for up to three years. Applicants may request up to $20,000 for the student's stipend and up to $10,000 for lab expenses. No indirect costs may be requested.

Mentor-Based Postdoctoral Fellowship Award
Award Description: These awards are granted to established diabetes investigators to support a postdoctoral fellow. Applications must be initiated and completed by the mentor.
Support: Awards are $45,000 a year for four years. No indirect costs may be requested.

Mentor-Based Minority Postdoctoral Fellowship Award
Award Description: These awards support minority postdoctoral fellows working with established diabetes investigators. Applications must be initiated and completed by the mentor. Eligible minorities include: African American, Spanish, Hispanic or Latino, American Indian or Alaskan Native, and Native Hawaiian or Pacific Islander. The applying fellow must be a US citizen or permanent resident.
Support: Awards are $45,000 per year for 2 to 3 yrs. No indirect costs may be requested.

Deadline Date for these grant opportunities: January 17, 2012 for July 1, 2012 funding.
